

The History of Manchester

The Avro Manchester Mark III BT308, prototype of the Avro Lancaster heavy bomber, first flies, from RAF Ringway

09/01/1941

The Avro 679 Manchester was a British twin-engine medium bomber developed and manufactured by the Avro aircraft company in the United Kingdom. While not being built in great numbers, it was the forerunner of the famed and vastly more successful four-engined Avro Lancaster, which would become one of the most capable strategic bombers of the Second World War. Avro designed the Manchester in conformance with the requirements laid out by the British Air Ministry Specification P.13/36, which sought a capable medium bomber with which to equip the Royal Air Force (RAF) and to replace its inventory of twin-engine bombers.

Victoria University of Manchester students use the Rag festival to collect money for local charities for the first time

10/02/1921

Manchester RAG is the official fundraising arm of the University of Manchester Students' Union. It is responsible for helping facilitate the fundraising activities of all students in Manchester, and in doing so promoting the personal development of students. Last year Manchester RAG helped University of Manchester students raise £190,000 for a variety of charities, ranging from small community based charities in the North West, to large international development organisations.

The History of Manchester

The second Theatre Royal is destroyed by fire

07/03/1844

The second Theatre Royal opened in Fountain Street on 12 July 1807 and was destroyed by fire on 7 March 1844. John Knowles took over the management of this second Theatre Royal some time before the fire, at a time when the theatre in Manchester was at its lowest ebb. Knowles set up a strong stock company and proved himself a very capable, though somewhat authoritarian, theatre manager. However, following the 1844 fire the proprietors of the theatre in Fountain Street refused to rebuild it.

The Manchester Mark 1 computer is operable at the University of Manchester

01/04/1949

The Manchester Mark 1 was one of the earliest stored-program computers, developed at the Victoria University of Manchester from the Manchester Baby (operational in June 1948). It was also called the Manchester Automatic Digital Machine, or MADM. Work began in August 1948, and the first version was operational by April 1949; a program written to search for Mersenne primes ran error-free for nine hours on the night of 16/17 June 1949.

1996 Manchester bombing

15/06/1996

The 1996 Manchester bombing was an attack carried out by the Provisional Irish Republican Army (IRA) on Saturday 15 June 1996. The IRA detonated a 1,500-kilogram (3,300 lb) lorry bomb on Corporation Street in the centre of Manchester, England. The biggest bomb detonated in Great Britain since World War II

The History of Manchester

Manchester Cenotaph, designed by Sir Edwin Lutyens, is unveiled

12/07/1924

Manchester Cenotaph is a war memorial in St Peter's Square, Manchester, England. Manchester was late in commissioning a First World War memorial compared with most British towns and cities; the city council did not convene a war memorial committee until 1922. The committee quickly achieved its target of raising £10,000 but finding a suitable location for the monument proved controversial. The preferred site in Albert Square would have required the removal and relocation of other statues and monuments, and was opposed by the city's artistic bodies. The next choice was Piccadilly Gardens, an area already identified for a possible art gallery and library; but in the interests of speedier delivery, the memorial committee settled on St Peter's Square. The area within the square had been purchased by the City Council in 1906, having been the site of the former St Peter's Church whose sealed burial crypts

The History of Manchester

Manchester City F.C. play their first game at Maine Road in Moss Side, having moved from Hyde Road (stadium)

25/08/1923

Maine Road was a football stadium in Moss Side, Manchester, England, that was home to Manchester City F.C. from 1923 to 2003. It hosted FA Cup semi-finals, Charity Shield matches, a League Cup final and England matches and, because of its high capacity, gained the nickname Wembley of the North. Maine Road holds the record for the highest attendance for a club in their normal home stadium in English club football, set in 1934 at an FA Cup sixth round match between Manchester City and Stoke City.

The History of Manchester

The third Theatre Royal opens

29/09/1845

Knowles found a new site for his theatre on Peter Street. He demolished the Wellington Inn and Brogden's Horse Bazaar. Knowles employed Francis Chester and John Gould Irwin as the architects for his new theatre. In preparation for the building of the new Theatre Royal, Knowles and Chester went to London and visited most of the metropolitan theatres, noting their areas, internal forms, acoustic capabilities, etc. With a cost of £23,000, the new Theatre Royal opened to an audience of 2,500. Precautionary measures against fire were taken by placing a tank on the roof capable of holding 20,000 gallons of water, which was connected by pipes to the stage and the green room. Its programme that night included Weber's Oberon overture, Douglas Jerrold's "Time works wonders" and an elaborate ballet spectacle "The Court Ball in 1740". Knowles's schedule of productions was intensive – in one season there were 157 performances at which two and

Launch of The University of Manchester

22/10/2004

The current University of Manchester was officially launched on 1 October 2004 when Queen Elizabeth bestowed its Royal Charter. The university was named the Sunday Times University of the Year in 2006 after winning the inaugural Times Higher Education Supplement University of the Year prize in 2005.

The founding president and vice-chancellor of the new university was Alan Gilbert, former Vice-Chancellor of the University of Melbourne, who retired at the end of the 2009–2010 academic year. His successor was Dame Nancy Rothwell, who had held a chair in physiology at the university since 1994. One of the university's aims stated in the Manchester 2015 Agenda is to be one of the top 25 universities in the world, following on from Alan Gilbert's aim to "establish it by 2015 among the 25 strongest research universities in the world on
